

Unique Selling Proposition

DUNAVOX

THE WINE COOLING EXPERT

DUNAVOX TFT TOUCH SCREEN

The latest technology in home appliances, swipe through the settings menu just like your mobile phone; change settings from your mobile phone and set the temperature with the full colour screen.

DUNAVOX LCD TOUCH SCREEN

Our liquid crystal display is simple to use and allows you to drill down into the settings where you can change the lighting colour, lighting brightness and connect your mobile phone to the wine cooler, amongst other functions.

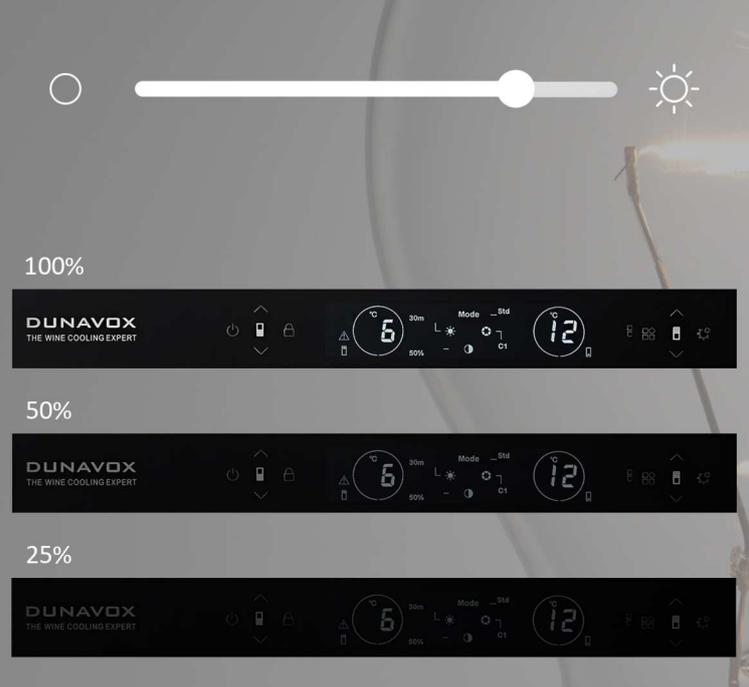

DUNAVOX LED TOUCH SCREEN

The LED display allows a quick and easy use to set and check the desired temperature or switch the lights on and off.

DUNAVOX DIMMABLE LIGHT

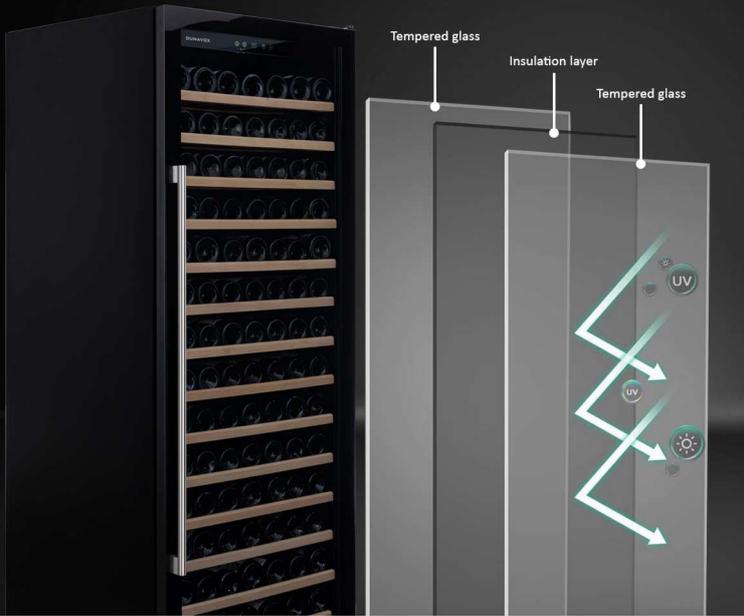

DUNAVOX

THE WINE COOLING EXPERT

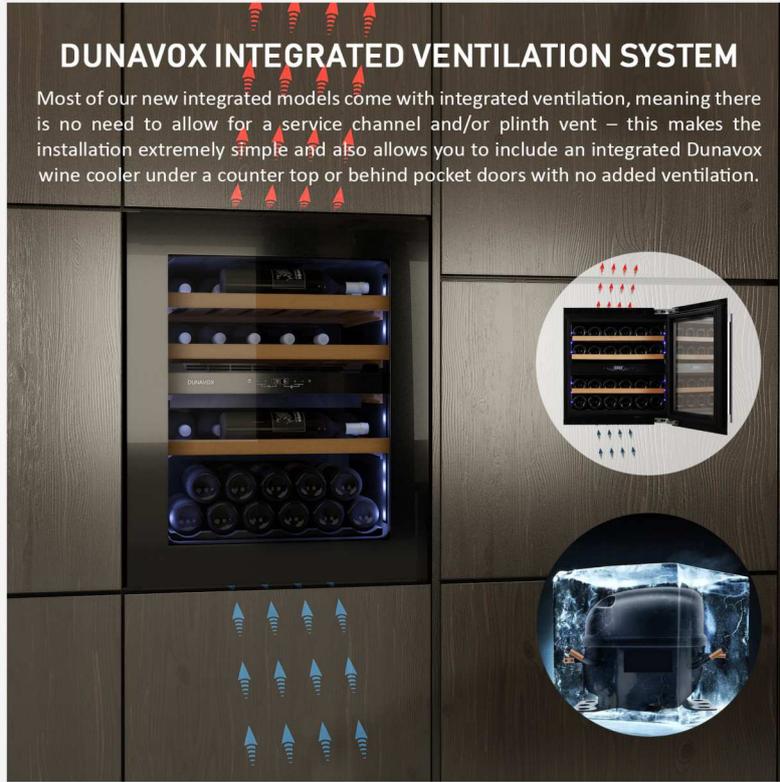

DUNAVOX 3 LAYERS GLASS DOOR

UV protected

DUNAVOX INTEGRATED VENTILATION SYSTEM

Most of our new integrated models come with integrated ventilation, meaning there is no need to allow for a service channel and/or plinth vent – this makes the installation extremely simple and also allows you to include an integrated Dunavox wine cooler under a counter top or behind pocket doors with no added ventilation.

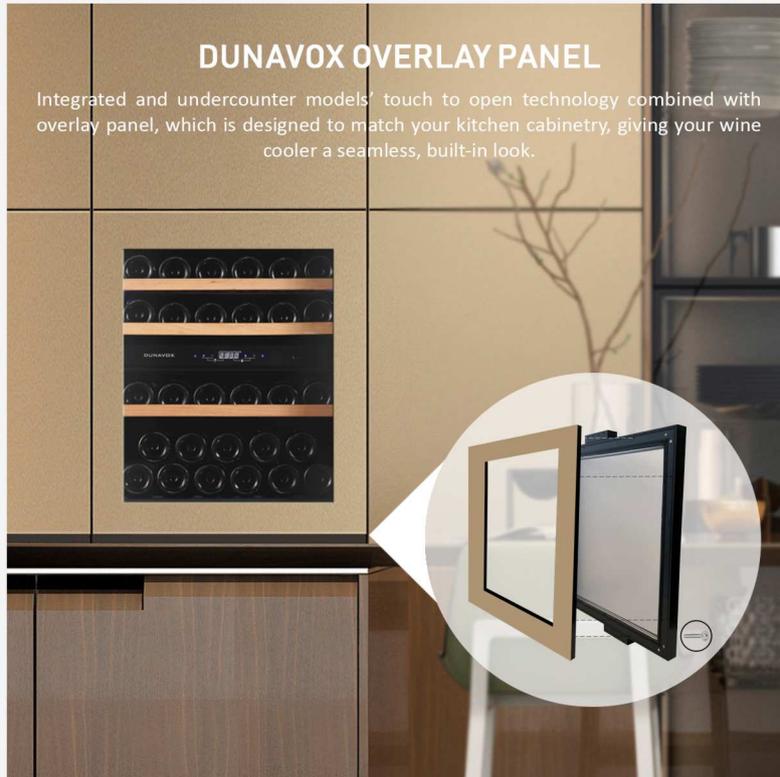

DUNAVOX INVERTER COMPRESSOR

To reduce noise level & anti vibration

DUNAVOX OVERLAY PANEL

Integrated and undercounter models' touch to open technology combined with overlay panel, which is designed to match your kitchen cabinetry, giving your wine cooler a seamless, built-in look.

DUNAVOX

THE WINE COOLING EXPERT

DUNAVOX MULTI LED LIGHT

Adapt the colour of the lighting to match the aesthetic of your home or bar area with the option to change the colour of the smooth LED lighting strips – changing the lighting colour also changes the display as an added benefit.

DUNAVOX RADIAL FAN

For more efficient ventilation

DUNAVOX TELESCOPIC WOODEN SHELVES

The shelving on the majority of our integrated coolers has now been updated to feature telescopic rails which extend 80% of the way out of the wine cooler, allowing full access to the bottles. The shelf spacing has also been increased, now allowing for Champagne bottles on almost all of our shelves within the new integrated ranges.

DUNAVOX HETTICH GERMAN HINGES

Now updated with the 'silent' versions, they are designed to open within themselves by pushing the door out and away from the kitchen carcass in a smooth operation. As standard our coolers come RH hinged but with these hinges they are able to be reversed so the wine cooler is LH hinged.

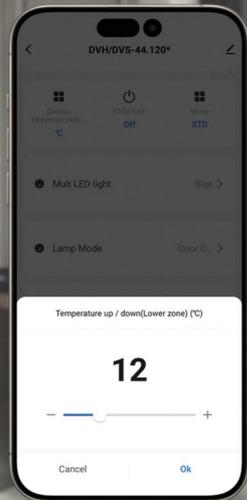

DUNAVOX

THE WINE COOLING EXPERT

DUNAVOX WIFI + SMART APP

Experience unparalleled convenience and control with our wine fridge's advanced WiFi and smart app functionality. Whether you're at home, work, or on the go, stay connected to your wine collection like never before, ensuring every bottle is perfectly chilled and ready to enjoy whenever the moment strikes.

DUNAVOX RAL COLOUR DOOR

Please choose your desired RAL colour for your wine cooler with surface specification. Glossy, matte or metal.

DUNAVOX PUSH-TO-OPEN PRESSURE ADJUSTMENT

Our push-to-open models come with a simple adjustment tool that allows the customer to adjust the sensitivity of the mechanism, for houses with lots of children it may be best to reduce the sensitivity for example – by adjusting the knob by a ¼ turn, the sensitivity can be increased or decreased easily.

If the push door is insensitive, adjust the knob of 1/4 circle.

Adjusting knob

rotate to the left, the knob is stick out of the door frame; turn to the right and retract the knob into the door frame. (Please refer to the instructions)

DUNAVOX HIDDEN HANDLE DOOR

In keeping with the handleless design trend within the kitchen industry, we have released a small range of undercounter models with a recessed handle, allowing you to offer a cost effective handleless design instead of a push2open mechanism.
